### Year 3 – The Stone Age

What I should already know	What I will learn	Important words to help me. (vocabulary)	Timeline																								
<p>Life existed before my grandparents were born. Dinosaurs lived millions of years ago. The Stone Age was a period in history a long time ago.</p>	<p>Dinosaurs did not exist at the same time as man.</p> <p>Fossils are evidence that dinosaurs existed.</p> <p>The Stone Age began when the first tools were made from stone and ended with the introduction of metal tools.</p> <p>At the end of the Ice Age, the sea levels rose and so Britain turned into an island.</p>	<table border="1"> <tr> <td>ancient</td> <td>belonging to the distant past, especially to the period in history before the end of the Roman Empire (AD 410)</td> </tr> <tr> <td>archaeologist</td> <td>someone who studies the past by exploring old remains artefacts or objects from the past that shows evidence of how people lived</td> </tr> <tr> <td>civilisation</td> <td>a human society with its own social organisation and culture.</td> </tr> <tr> <td>era</td> <td>a period of time in history. An era often begins or ends with an important event.</td> </tr> <tr> <td>extinct</td> <td>no longer has any living members, either in the world or in a particular place</td> </tr> <tr> <td>flint</td> <td>a piece of stone used in fire-starting and as a tool</td> </tr> <tr> <td>Palaeolithic</td> <td>Old or 'ancient' Stone Age.</td> </tr> <tr> <td>Mesolithic</td> <td>Middle Stone Age</td> </tr> <tr> <td>Neolithic</td> <td>New Stone Age</td> </tr> <tr> <td>settler/ settlement</td> <td>people who migrate to a new place. When people start a community, this is a settlement</td> </tr> <tr> <td>Bronze Age</td> <td>historical period when people made tools and weapons from bronze</td> </tr> <tr> <td>Iron Age</td> <td>Historical period when people made tools and weapons from iron.</td> </tr> </table>	ancient	belonging to the distant past, especially to the period in history before the end of the Roman Empire (AD 410)	archaeologist	someone who studies the past by exploring old remains artefacts or objects from the past that shows evidence of how people lived	civilisation	a human society with its own social organisation and culture.	era	a period of time in history. An era often begins or ends with an important event.	extinct	no longer has any living members, either in the world or in a particular place	flint	a piece of stone used in fire-starting and as a tool	Palaeolithic	Old or 'ancient' Stone Age. Neolithic	New Stone Age																										
settler/ settlement	people who migrate to a new place. When people start a community, this is a settlement																										
Bronze Age	historical period when people made tools and weapons from bronze																										
Iron Age	Historical period when people made tools and weapons from iron.																										
<b>Interesting Facts</b>	<p>Humans survived by using sharp stone tools to kill animals, such as mammoths. Dead animals proved to be useful resources because they provided food to eat and skins to keep warm.</p> <p>Their bones were another useful material for making tools.</p> <p>Evidence of the Stone Age includes discoveries of: cave paintings, early tools such as flints, fire hearths, settlements such as Skara Brae, Cheddar Man - the remains of a Mesolithic man.</p> <p>Egyptians were building the pyramids around the same time as the Neolithic era.</p>																										
<p>Skara Brae is a Neolithic settlement discovered in Scotland.</p> <p>One of the oldest stone tools found is about 3.4 million years old and was found in Africa</p>
