

Nursery Knowledge Organiser Spring Term

What do we already know?

How to explore our Nursery environment and how to play safely inside and outside.

We all have family members who are important to us and we live in England on the Planet Earth.

That seasonal changes make the leaves change colour and fall of the trees and we can harvest food from our garden to eat.

It is important to celebrate different events from different cultures.

Words that will help me

<u>Plants</u>	<u>Life Cycles</u>	<u>Prepositions</u>	<u>Environment</u>	<u>Celebrations</u>
Seed	Egg	On	Weather	St George
Grow	Hatch	Under	Spring	Knight
Sunlight	Duckling	Around	Warm	England
Water	Duck	Next to	Showers	Easter
Soil	Frogspawn	In	Sun	Bunny
Space	Tadpole	In front	New life	Eggs
Flower	Frog	Between	Fresh	Birthday

What we will learn

What events families celebrate during the year such as St Georges Day, Easter and Birthdays. We will learn about St George and how he slayed a Dragon. Will celebrate Easter and talk about why we celebrate Easter.

We will learn how to take care of plants and what plant needs in order to grow and be healthy. We will bring in our own plants from home and plant them in the garden area. Then use secondary sources such as the internet and non-fiction books to research our own plants. We will take responsibility for caring for their own plants, watering them daily. We will find out about different foods that grow in the ground and we will sort foods that do grow in the ground to those that don't.

We will explore the season of Spring and new life. We will find out about which animals that are born at Spring time as our Ducklings arrive at Nursery. We will learn about how to care for our Ducklings and how to handle them carefully. We will also learn about the life cycle of a duckling and other living things such as Frogs.

Books we might explore
